Solo only event \$90

6hr only on either Saturday and Sunday \$70 each day.

On the day registrations will incur an additional \$10 fee

Registration Number Pickups:

24hr and 6hr+6hr - Saturday 10:30am – 11:30am

At registration you will pick up your race number and timing chip.

Compulsory Rider Briefing:

Rider briefing is at 11:30am before race start, at the transition area for the 24hr. ALL riders must attend. It is a condition of your entry that you attend the briefing

Race Start:

24hr

Riders will commence at 12 noon. Riders will line up and self-seed before the start. All solo 24hr & one team rider from each team will start together at noon.

Riders will continue to lap the course for 24hr. The rider/team with the most number of laps wins. If rider/teams have the same number of laps, then whoever finished those laps in the quickest time wins. Teams ride in a relay fashion with only 1 rider from a team on the course at any one time. You can stop riding at any time and have a break. Teams can swap with team mates whenever they like and a physical touch must occur between riders (e.g. hi five), however interchange must occur in the transition zone, after the timing tent to receive a valid lap time. This will be marshalled and failure to follow the rules will result in a Timeout penalty. Riders not completing the full 24hrs will not DNF but must notify the timing crew.

6hr+6hr

Riders will commence at 12 noon and finish at 6pm and then start at 6am the next morning and finish at midday. Riders will line up and self-seed before the start. This is a solo event only and you will be completing the same loop as the 24hr.

You can just ride the 6hr on the Saturday or the Sunday if you like. There will be no prizes for just riding 6hrs only.

Transition:

The transition zone will be a bunted area after the timing tent. You must transition between team members here to receive a valid lap time. You are not allowed to ride through transition, however please be aware of other riders who are continuing onto another lap. Leave the transition quickly & don't block the area.

The Course:

The course is a loop of approximately 15km ridden clockwise for the 24hr. It is a mixture of fire trail and 99% single track. Any intersection with tracks which are not part of the course will be "bunted" off or have ribbon hanging from trees on course. You will not need to make any navigational decisions.

Complete Laps;

Once on the course you must complete a full lap. If you have a mechanical problem, do not come back to the event village in the reverse direction as your lap will not be counted!

Medical:

We have first aid officers available at the transition area. If you come across an injured rider out on the course, please stop to check if they are ok. The next rider to come along should then inform the next check point. Checkpoints have a phone to contact the main precinct and the medics will be sent out. Riders on course should give way to medical vehicles.

Attaching Your Bike Number Plate:

Attach your bike number to the front of your bike using at least 3 ties, securely fastening in an upright position ensuring that can be easily seen from the front. Your Number should be *in front* of the brake cables and not wrapped around any part of the bike. The number cannot be altered, obscured, cut or de-faced. If the race number is not attached correctly there is a possibility that the time keepers will not read your number. It is your responsibility to ensure it is fitted correctly.

Racing:

Bikes and Equipment

Your bike must conform to the UCI general rules for mountain bike racing. Electric bikes or power assisted bikes are not allowed.

Lights:

At night, you must have a red rear flashing light, a white front light (it is advisable to carry a spare white light or a small torch). These will be required to be fitted at the start of the race and must be on at all times while you are on the course. At head touch is also compulsory.

Helmets:

International Standards approved bicycle helmets must be worn at all times while riding a bike during competition and practice. The following helmets are accepted: AS/NZ 2063, ANSI Z90.4, SNELL B or N Series, ASTM F-1447, CAN/CSA-D113.2-M, US CPSC standard for bicycle helmets, European CEN standard EN1078. Failure to meet this requirement may result in immediate disqualification from the event. Damaged helmets must be replaced. Skate style helmets are not approved for this race. The mounting bracket for a helmet-mounted camera must not compromise the structure of the helmet. For example, it can be attached by straps, Velcro or glue – but it cannot be bolted to the helmet. It is up to you as a rider to follow QLD bike laws.

Right-of-Way, Passing and Being Passed:

A rider walking their bike must give way to a rider who is riding if you are walking your bike; make sure you leave plenty of open tracks for the other riders.

The rider being overtaken has right-of-way (unless they are walking their bike) until the overtaking rider is past and clear by one bike length.

If you want to pass the rider in front on single track, call out "TRACK".

When the rider in front feels it is safe to pass, they will pull over to one side and call "PASS". They may also call out "ON MY LEFT / ON MY RIGHT".

Let the rider in front know what you are doing by calling "ON YOUR LEFT / ON YOUR RIGHT". If there will be more than one rider passing, let the rider in front know that as you pass them by calling, for example "TWO MORE COMING THROUGH".

If you do not make this call, the rider in front will assume you have decided not to pass and will return to the center of the track.

The rider in front is under no obligation to let you pass, but slow riders and lapped riders should not delay faster riders unless it is unsafe to let them pass. Remember, if you are the overtaking rider, the conditions you feel are safe may not be considered safe by the rider you want to overtake. They may be less experienced than you, or they may have seen something on the track that you have not. Overtaking is not allowed on bridges or constructed ramps.

Smoke Free Environmental Act 2000 Law:

All On the Edge Events are smoke free. Spectator areas at sports grounds or other recreational areas used for organized sporting events it is not against the law in QLD to smoke.

Categories and Rider Age:

A rider's age is calculated on the day of racing. The categories we have are "Open Solo 14yrs – 39yrs" and "Veterans 40yrs +" for male and female. We will also have multiple team options for male/female/mixed available.

Pausing or Abandoning the Race:

The race may be paused or abandoned due to extreme weather, emergencies or any other reason decided by the organizer. If the race is paused, all riders must complete the lap they are on and their time and laps will be recorded. If the race is then abandoned, that will determine the placings. If the race is resumed at a later time, then the riders will be started on their lap in a staggered start method, so that each rider has the same time off the bike due to the pause and there is no unfair advantage gained. There will be no refunds or other considerations if the race is paused or abandoned.

Carrying Items during the Race:

iPod or other musical playing devices are not permitted for riders while on course. Riders are permitted to carry mobile phones or 2-way radios on course, but they must not use earpieces, and the riders must stop and pull off the course when they use using them. Riders are not allowed to wear helmet cameras, fitted either to their helmet, body or bike, in practice and during the race. The mounting bracket for a helmet-mounted camera must not compromise the structure of the helmet. For example, it can be attached by straps, Velcro or glue – but it cannot be bolted to the helmet.

Withdrawing From the Race:

A rider may withdraw from race at any time. If they choose to withdraw, they must notify the event staff at the timing tent. A rider who withdraws is not allowed to rejoin or resume the race. They must remove their race numbers and cannot ride on the course for the remainder of the event. If they have completed at least one lap, they will be awarded a race result.

Medical Assessment and Assistance:

General first aid care during the race is provided by members of On the Edge Events, from the moment riders enter the starting area until they leave the finishing area. Interventions during the race can only be carried out in a stationery position. Riders must dismount from their bikes to receive medical assistance.

If you are injured and assisted back to the event center, then your lap will not count. Following treatment, the Race Director will make a decision on whether you are allowed to continue the race, based on available medical advice. The Race Director's decision is final and non-appealable. The Race Director may remove a rider from the course for assessment if in the Race Director's opinion the rider is showing signs of extreme fatigue or other condition which may be detrimental to the rider or to other riders in race. Following medical assessment, the Race Director will either:

- Allow the rider to resume racing,
- Mandate a rest period before the rider can resume the race, or
- Withdraw the rider from the race

This decision is the sole responsibility of the Race Director and is non-appealable. There will be no compensation for the rider for the time taken for the assessment process

Race Finish:

The fastest rider to complete the laps required will be determined the winner. If you cross the finish line after the 24hrs or the 6hr+6hr your lap will not be counted. Race will finish in under the arch.

Presentations:

They will be held at approximately 12:30pm for all 24hr and 6hr+6hr competitors at the transition area.

We encourage all participants to mingle round after the event as presentations. Event winners will receive something special and different reflecting the local area to congratulate them, and follow a random prize draw with lots up for grabs that have been kindly donated you must keep your bib and be present to win these prizes

Food:

Please bring your own race food nutrition. Limited water will be available. The Pavilion Tavern will be open from 11am food as well.

Camping:

There is camping available at the Resort for \$20 per tent per night, non-powered site. Just send us a message. You can bring a generator for power if you require. Showers are available at the resorts pool toilets.

Power:

We will have a power station setup for the purpose of recharging your batteries or phones. Come and see us at the timing tent.

Toilets:

Toilets will be provided.

Parking

Event parking will be provided.
